# Event Highlights

# March of Dimes – New York State

In **New York**, more than **237,200 babies** are born every year, and the work of the March of Dimes touches each one of them, whether they are born healthy, prematurely, with a birth defect or other health complications.

Each year in New York:

- 20,531 babies are born preterm — that's 1 in 11 babies born too soon.
- 7,190 babies are born with a birth defect.
- 1,169 babies die before reaching their first birthday.
- Prematurity and birth defects are the leading causes of infant mortality.
- The medical and societal cost of preterm birth is \$1.1 billion.

Thank you for supporting our mission!

# This year with your help

We gave nearly  
**4 MILLION** babies  
a fighting chance

More than  
**75,000**  
families with a baby born preterm or  
very sick were supported through our  
NICU Family Support® program

**110 WINS**  
in advocacy and legislation were  
achieved across the country

**200**  
scientists collaborated to find causes  
of and treatments for premature birth  
at Prematurity Research Centers

**\$19.3 MILLION**  
invested in research to defeat  
premature birth and birth defects

**\$2.9 MILLION**  
invested in communities to help  
moms have healthy babies

**120,000**  
people visited [shareyourstory.org](https://shareyourstory.org),  
our online community that  
connects families

**3 MILLION**  
people participated in  
March for Babies, our  
largest fundraising event

**25 STATES**  
improved or maintained their  
rate of preterm birth
