

2012 annual report donor list

The Roosevelt Legacy Campaign

In honor of our 75th Anniversary and in tribute to our founder, Franklin D. Roosevelt, a major gift initiative was launched in his name. Through the launch of this campaign, we will be able to secure our financial capacity and vision for the future. The vision is to create advanced lifesaving research around prematurity and expand our community outreach and programming. Names of the following founding members of the Roosevelt Legacy will be highlighted on a special Franklin D. Roosevelt tribute wall. The permanent wall will continue recognizing future major gifts and their investment in improving the health of our children.

March of Dimes Prematurity Research Center at Stanford University School of Medicine

We are deeply grateful to the following donors for their generosity and support of the March of Dimes Prematurity Research Center at Stanford University School of Medicine. Together, the March of Dimes and Stanford have created the nation's first transdisciplinary research center dedicated to identifying the causes of premature birth. More than 130 scientists in fields ranging from neonatology and genetics to computer science and artificial intelligence are pursuing a revolutionary model of "team science" to find answers.

The March of Dimes acknowledges the generosity of all donors who made gifts between January 1, 2012 and December 31, 2012. These gifts fuel our determination to find causes and preventions for premature birth and other infant health problems. Space does not allow us to recognize the millions of individuals, companies and foundations that support our mission, but we are grateful to them all.
