MARCH OF DIMES

For 80 years, the March of Dimes has helped millions of babies survive and thrive. We're now building on that legacy to level the playing field for all moms and babies, no matter their age, socio-economic background or demographics. Through our programs, advocacy and pioneering research, March of Dimes leads the fight for the health of all moms and babies. While focused on all mothers and babies throughout the nation, March of Dimes has developed specific programs and services targeted to low-income women and babies to ensure their health and success. Support of these targeted programs by a bank will provide CRA credit.

CRA PROGRAMS & SERVICES OVERVIEW

GROUP PRENATAL CARE

Community Services *Low-Income Women* *National*

This program sustains group prenatal care across the United States targeted at low-income women and women of color in high-need communities. Group prenatal care is clinical care and prenatal education provided in a group setting to support women attending the sessions. Studies have shown that group prenatal care significantly decreases adverse birth outcomes. This program meets all clinical guidelines and is available nationally. Targeted states include Arizona, Arkansas, California, Florida, Georgia, Louisiana, Mississippi, New York, Ohio, Tennessee, Texas, Virginia and Washington. Since the majority of participants are low-income, this program is an ideal opportunity for banks to receive positive CRA consideration.

NICU FAMILY SUPPORT

Community Services *NICU & Low-Income Families* *National*

The NICU family support program is available for families throughout the country and Puerto Rico. This program provides education and support for families with a baby in the neonatal intensive care unit (NICU). The program offers the parents special materials and educational guides as they begin their parenting journey. The program also supports educational training for hospital staff at over 120 NICUs. As an extension of this program, March of Dimes also partners with community organizations to host baby showers focused on providing additional support and supplies for low-income women and military families.
