5. “View all”
PeriStats: Parts of the Landing Page

1 “Select a summary”
By clicking on the “Select a summary” button, a drop down menu will appear with a list of landing pages.
Click on one of the names to go to the corresponding landing page.

2 Query Tool
Any set of data available on PeriStats is accessible using the query tool.
When clicking “edit” next to Location, Topic or Format a menu with selectable search options will appear.
Clicking the search button will execute a query based on the selected options.

3 Results Display
Data associated with a query is displayed in this location.
All Landing Pages will display the 10 year trend for the most current preterm rates.

4 “State summaries”
The most commonly sought after data for the US or a state can often be found in one of the “State summaries” documents.
Special note should be taken of the “Overview Slides” which is a set of Power Point slides that are ready to use in presentations.

5 “View all”
The “View all” options will display in one place a list of all the data available in PeriStats for the geographic area of interest.
By clicking one of the links, a page is displayed with a list of all the topics, subtopics and filters (stratifications) for a given format type.
